

INTERVIEW WITH LEILA

Describe your self and please give us a brief background on your musical journey

I was born in Argentina and raised in Barcelona and Valencia Spain. I later moved to Canada and now I live in the United States. My music is a blend of Soul, Smooth Jazz, R&B and Latin "World" rhythms! I did not grow up in a musical family per se, though my father had an amazing voice and would sing around the kitchen while cooking (laughs).

I was attracted to theatre at a very young age and the usual "childhood course" of plays, school concerts, vocal jazz band and performing arts soon followed. I played a "dragons tail" in my grade 2 play to a standing ovation (laughs).
